Professional Work Experience

Product Designer • CreativeCloud.ai

Jan 2023 – Present • Full-time

- Sole designer at an AI-focused software company — owning the entire product design process from discovery through delivery.
- Translate complex AI-powered features into clear, intuitive interfaces for a non-technical user base.
- Collaborate directly with founders and engineers, running quick design cycles to ship and iterate on product features.
- Maintain and evolve the product design system, ensuring visual consistency and developer-ready handoff across all screens.
- Also worked with CreativeCloud.ai as a freelance designer prior to joining full-time (2020 – 2022).

Product Designer • Independent Practice

Jan 2020 – Dec 2022 • Freelance

- Designed Stride, an adaptive learning platform for working professionals — streak-based retention model, 4.6/5 projected satisfaction.
- Designed Fiber, a diabetic companion app with meal scanning, BGL monitoring, and community features — fully color-blind accessible.
- Designed Meridian, an enterprise PM tool with AI-powered prioritization across 5 interactive screens — 93% heuristic task completion.
- Designed Nocturne, a premium desktop gaming library with dark antiquarian aesthetic — 4.8/5 projected satisfaction score.
- Built WCAG AA-compliant design systems with documented tokens, component states, contrast ratios, and developer-ready handoff specs.
- Created interactive Figma prototypes for stakeholder presentations and cross-functional engineering alignment.

Visual & Brand Designer • Independent Practice

Dec 2015 – Dec 2019 • Full-time

- Delivered 1,000+ brand identity projects through freelance platforms, working with international clients across 15+ industries.
- Produced motion graphics and brand animations in After Effects for digital marketing campaigns and product launches.
- Developed deep expertise in typography, color theory, and layout systems — directly transferable to product design craft.
- Managed end-to-end client relationships from discovery through final delivery.

Portfolio Case Studies

Each project includes competitive analysis, wireframes, hi-fi screens with design rationale, edge case screens, design system with accessibility specs, heuristic evaluation methodology, and honest reflections on trade-offs.

Stride (EdTech, Web+iOS) • Fiber (Health, iOS+Android) • Nocturne (Gaming, Desktop) • Meridian (Enterprise SaaS, Desktop+Mobile)
